

CHRIST COLLEGE BHOPAL

NAAC Accredited, A-Grade (A CMI Institution)

## **JUNE 2020**

#### **Principal's Message**

We are passing through a very tough and unpredictable phase in our life. COVID -19 has changed substantially the way we live. Challenges come to us to make us better not bitter. If we do not challenge ourselves, we will never realize what we can do and become. Be thankful for each new challenge because it will build our strength and character. Challenges can make us or break us. Do not run away from a challenge, instead run towards it. Every challenge opens up a new opportunity. Higher education faces many possibilities and challenges during the 'social distancing' period.

Virtual classrooms have already become a popular reality. COVID-19 has forced universities across India and the world to suspend physical classrooms and shift to online classes. The digital divide has been further widening the gap. Post-pandemic times will see a blend of e-learning and face-to-face teaching. The structure of schooling and learning, including teaching and assessment methodologies, wasthefirsttobe affected by these closures.

In the wake of this challenging scenario, Christ College, Bhopal is ready to equip you to 'swim against the current'. Our specific vision of the college is inscribed on the motto: "Excellence and Empowerment". Christ College envisages to form the future educators, teachers and citizens who are intellectually competent, spiritually mature, morally upright and socially acceptable. We will challenge the challenging world and will build the KingdomofGod.

Rev. Dr. Johnson S.V. Principal

#### **Director's Message**

We live in one of the worst times ever! This time will go down into the annuls of history with the nick name "COVID days" as the deadly virus Corona has a final say in almost every aspect of life under the sun. Whether politics, economy, education, tourism, family, society, health sector, it seems that all these are strictly under the noose of this deadly virus. Days are as bleak as nights and nights are darker. Every one is eagerly looking for a ray of hope as to when this virus will fizzle out on its own or when there will be an effective vaccine against it.

One of the strategies to break the transmission of this deadly virus is an imposed lockdown in most of the countries. The solitude of lockdown has become so intense and scary that some took to extreme steps like committing suicide. Professionals and students alike have been the victims of this unwelcome tendency.

We must realise that humanity has this great potential to recover from any tragic sequence imposed on it. I am reminded of the little girl Anne Frank who was killed during the Nazi regime as part of their anti-Jewish campaign. Written while living on a roof top for two long years in an imposed lockdown before they were taken to the concentration camps, her autobiography "The Diary of a Young Girl" shows how cheerful and innovative she remained during those days of apprehension and anguish.

Dear students, I wish these COVID lockdown days shall be cheerful and innovative for each one of you. The ample quality time at your disposal shall be effectively used to discover yourself.

Stay Safe! Stay Tuned! Stay Blessed!

Rev. Dr. Joby Pulikkan Director

# From the Annuls of Christ College, Bhopal

#### **New Academic Year**

Academic year 2019 - 2020 was inaugurated on  $1^{st}$  July 2019 with new vigour and vitality.

In the session drawing, sketching ,painting, rangoli making, puppetry, mask making, pot making etc were taught. Students prepared and submitted a file on the same.

#### **Online National Workshop on Yoga**

Yoga is an ancient physical, mental and spiritual practice that originated in India. The word 'yoga' derives from Sanskrit and means to join or to unite, symbolizing the union of body and consciousness. Every year, June 21 is recognised as International Yoga Day but due to social distancing measures adopted by most countries, the theme set by United Nations for this year is "Yoga for Health – Yoga at Home". The World Health Organization mentions yoga as a means to improve health in its Global Action Plan on Physical Activity 2018–2030: more active people for a healthier world.

In lieu of this Christ College organized an online National workshop on Yoga on 24, 25 and 26 June 2020. The online session was attended by more than 100 participants from various schools, colleges and universities across the country. The resource person of the workshop was Ms. Pratibha Prasad Yadav, a professional yoga consultant. The theme of the workshop was 'Yoga at Home; Yoga with Family'.

The objective of the workshop was to teach yoga for a healthier life and to prepare people to fight against COVID-19. **Online National Workshop on Yoga** 

#### **Teachers Conducting Virtual Lecture Series**

#### **Virtual Lecture Series**

The lockdown 2020 due to the widespread of Corona forced closedown of schools and colleges through out the world. In India it began on 21<sup>st</sup> March 2020. But due to the boon of technology it was decided throughout the world to provide education with the help of internet. In lieu of this Christ College organized academic as well as non academic online lectures for students of all streams. The lectures began on 4<sup>th</sup> May 2020 in which students from all the departments participated . Then there were series of lectures exclusively for each subject. The series still continues as on schedule.

The objective of these online lectures was to provide uninterrupted education to students during lockdown, to teach new content, revise the old ones and to create a new learning environment. IGNOU- Dr. Diwakar Singh And Dr. Pallavi Shrivastava Being Felicated On Convocation By Vice Chancellor of Barkatullah University,

Prof. R. J. Rao in the gracious presence of Rev. Dr. Johnson

## Ms. Yashasvi Kumud Conducting A Workshop on Gender Issues And Sensitization

#### **Corona Awareness Program**

As the pandemic COVID-19 attacked the world the need for masks and sanitizers increased drastically and because of the heavy demand the producers could not satisfy the need of the masses. Students of Christ College, Bhopal realizing the need of the hour started making masks for the needy. The masks made were then distributed to the public. The objective of the activity was to spread awareness about the ways to protect oneself during COVID-19.

#### Corona Awareness Program (Mask Making and Distribution)

#### **Online Collage Selfie Competition**

#### **Mock Viva**

Mock viva-voce for the subjects Understanding of ICT and Functional English was organized on 7<sup>th</sup> March 2020 with the objective of preparing students for upcoming final practicals of B.Ed. 4th semester and B.A. 1st year students respectively.

#### **Online Collage Selfie Competition**

Christ College organized an online Collage Selfie competition, as students were not able to come to college due to COVID 19 lockdown. Students must make efforts to nurture, conserve and protect Mother Nature and must develop Eco Friendly behaviour. This competition was intended to boost the personal efforts of students in this direction.

In the competition students submitted a collage of 5 pictures showing the efforts that students are making towards conservation and protection of environment and the changes they have incorporated in their daily lives for healing the environment. 20 students participated in the competition . The event was judged by Ms. Rony Joy, Dr. Ansi and Dr. Pallavi Shrivastava. The first prize of the competition was won by Ms. Prachi Sahu . Ms. Prachi in her collage showed 5 different activities which included planting a tree, making organic manure, making an eco friendly sanitizer with no alcohol, stitching bags out of old clothes to replace plastic and finally she showcased the cleaning work that she has been doing under 'Swachh Bharat Abhiyan'.

#### **Students' Participating in Mock Viva**

#### **Social Outreach Program**

#### **Social Outreach Program**

Special classes on English were organized for the 12th class students of nearby schools. The classes were attended by 20 students from the Sanskar Valley school and Government school, Padariya. In the classes the students were taught basic grammar, reading, writing and speaking. The classes began in February and lasted till March. The classes were taken by Fr. Dr. Joby, Ms. Jaya Saini and Dr. Pallavi Shrivastava. The objective of this social outreach program was to teach English language to the Hindi medium students of nearby schools , also to help them understand the syllabus of English and help them prepare for the upcoming Board Exams.

School Visit – Orientation Cum Counselling Program

Teachers of Christ College visited various schools of Bhopal and Raisen in the months of February and March. The objective of the program was to orient the students to the courses and facilities offered at Christ College, Bhopal. Various on the spot awareness programs and quizzes were organized and prizes were distributed to the students. Also announcement for Inter school dance competition and special training program in Computers and Spoken English was made. Students and staff of these schools were then invited to visit the College for further guidance.

#### Welcome Rev. Fr. Dominic Nattunilath CMI

Rev. Fr. Dominic Nattunilath CMI joined Christ College in January 2020, giving new vitality to the college administration. After long service as teacher and principal in rural and urban schools, Fr. Dominic is serving Christ College in different capacities.

#### Prof. Fr. Johnson Distributing Prizes During a School Visit

#### **Remedial Classes**

Remedial classes were organized for the students of B.Ed., and M.Ed. The classes were held in the month of March. The objective of the remedial classes was to academically help students to learn all the concepts which either they somehow missed to attend or did not understand and also to prepare students for the upcoming exams. The classes were attended by:

• B.Ed. 30 students participated from second Semester And 40 students participated from fourth semester

• From M.Ed. 8 students participated.

The success of the remedial classes was seen from the evaluation done by the subject teachers.

#### **An Online Birthday Celebration !**

We are Digitally Connected and Cordially United !

#### **Remedial Classes**

#### **Principal's Birthday**

On 9<sup>th</sup> of July 2020 the staff and students of Christ College celebrated Rev. Dr. Johnson's Birthday. A virtual birthday celebration was organized by the students under the leadership of Ms. Pooja Jain, student of B.Ed. II Semester and Mr. Royce Paul, student of B.A. I year. Though there was COVID-19 lockdown, it did not stop the enthusiasm and the zeal of students. They expressed

their affection and respect towards their beloved Principal through messages, songs and dance which they performed online on Zoom. The program began with a prayer. Students were online but the staff members did assemble in the college to greet Father. The Director, Dr.

Fr. Joby; Manager, Dr. Fr. James, and Fr. Dominic gave blissful messages. Teacher in charge of the celebration recited a poem to express happiness and gratitude.

After Cake cutting the program concluded with Father Johnson's message where he expressed his gratitude and showered his blessings.

#### CORONA VIRUS AND SOCIAL SENSITIVITY

IMPACT OF COVID-19 ON EDUCATION SYSTEM

This year has been full of challenges for everyone, on some level or the other. We are in the current state of a massive set back caused by the devastating Corona virus. The Corona virus has resulted in countless changes in daily life with schools being closed, travel being upended, vulnerable economic conditions and sporting events being cancelled or postponed.

I believe that this year especially calls for us to be united and helpful and this is not the time to pull each other down. I see the online community being hurtful to each other bringing each other down harshly and with quick judgements. Today if you take a glance at social media and instagram and such, the first things that stream on your phone are memes and humorous jokes about Covid-19. Next, we also see people bullying each other on social platforms . I do not find any reason behind these unwelcome pranks played on all and sundry.

What we need is more of sensitivity towards each other, more of kindness and more of understanding and more patience than what one sees today.

My presence online is limited , but I truly hope it all will evolve into a place of empathy and support for everyone, no matter what your cause of hate is.

#### Ms. Lairee Lakra

Covid-19 which is a new virus and very destructive and devastating in nature and worse than a nuclear attack, has not only affected us physically, mentally and economically but the whole education system has also gone for a toss. Due to Covid-19 government has initiated online teaching and learning for all students as we have to stay indoors and maintain social distancing but it has struck specially those underprivileged children who cannot afford to pay internet bills and buy costly gadgets like laptops and mobiles to attend virtual classes. It has really brought disappointment to those families as well.

Schools and colleges are running short of funds to pay their staff or faculty as many people have lost their jobs and are paid less due to which they are not able to pay their children's fees.

It has put undue pressure on the whole education system as they are in dilemma whether to conduct exams or not and how it should be conducted because we cannot put our future generation's lives at risk.

Students who have really worked hard for their board examinations are dealt with injustice. Their hard work is not rewarded properly.

Government should provide funds to schools and universities and also make online education free for underprivileged children. We do not know how long we will have to live in this situation, but we have to prepare ourselves as responsible students, parents, teachers and school management for this kind of situation and save our education system so that there should not be any barrier for any student to avail education and no teacher should suffer financial crisis.

We believe that there is a solution to every problem and this time will also pass and everything will be restored to normalcy.

Ms. Priyanka Sankalp Pandey

#### COVID-19 TIPS TO BOOST YOUR MENTAL HEALTH

Pandemics are not just medical phenomena; they affect individuals and society on many levels, causing disruptions. Fear and anxiety about the new disease and what would happen next can be overwhelming, and cause strong emotions in adults and children. Public health measures, such as social distancing, can also make people feel isolated and lonely and can increase stress and anxiety. However, these actions are necessary to reduce the spread of COVID-19. Coping with stress in a healthy way will make you, the people you care about and your community stronger.

#### Healthy ways to cope with stress and anxiety

• Know what to do if you are sick and are concerned about COVID-19. Contact a health care professional before you start any self-treatment for COVID-19.

• Knowing the facts about COVID-19 and stopping the spread of rumors can help reduce stress and stigma.

• Know where and how to get treatment and other support services and resources, including counseling or therapy

• Taking care of your emotional health will help you think clearly and react to the urgent needs to protect yourself and your family.

• Take breaks from watching TV, reading, or listening to blah news stories, including those on social media.

- Take care of your body.
- Take deep breath, stretch, or do meditation
- Try to eat healthy, well-balanced meals.
- Exercise regularly, engage in recreational games.
- Get plenty of sleep.
- Avoid excessive alcohol and drug use.

• Take time to unwind. Try to do some other activities you enjoy.

• Connect with others. Talk with people you trust about your concerns and how you are feeling.

 Connect with your community or faith-based organizations. While social distancing measures are in place, consider connecting online, through social media, or by phone or mail.

• Stay healthy , your positive attitude and disposition are very important.

#### Impact of COVID-19 on Education System

In an effort to contain the spread of Covid-19 all educational institutions, from nursery schools to universities, are shut down in India from the second week of March. This impacted the Indian education system greatly, leading to a transition of learning to online platforms and the use of technology as a means to extended education to all.

Although online education cannot replace classroom education due to the personalized nature of attention and face to face interactions, it can be an effective supplement to the brick and mortar model of education. However, certain challenges need to be addressed to bring online education into the mainstream in India. Firstly, uninterrupted access to the internet is yet to become a reality in remote areas. Moreover, the concerns of increased screen time, anxiety and stress triggered due to the continuous use of electronic device also need to be addressed. It is important to look at the impact and reflect on what has transpired and what is likely to happen as we move forward in the field of global education.

There are a number of areas of potential risks for global education. One of the major concerns is the sudden shift to online learning without any planning, especially in countries like India where the backbone for online learning was not ready and the curriculum was not designed for such a format. It has created the risk of most of our students becoming passive learners and they seem to be losing interest due to low level of attention. Online learning is a special kind of methodology and not all teachers are good at it or at least not all of them are ready for this sudden transition from face to face learning to online learning.

We cannot ignore that at this time of crisis an effective educational practice is needed for the capacity building of young minds. This is not the time to wait and let the tide pass, but to rise and re-engineer the education sector to benefit all the stakeholders. Time never waits; this tough time will also pass, till then stay safe, stay home, stay protected.

Ms. Pooja Jain

#### Fr. Rony Alex

#### THE NEW WORLD AFTER CORONA

The Corona Pandemic has become a historic epidemic affecting human beings and their lifestyle on such a large scale. Since March 2020 in India and different months and dates in other nations on the calendar, lifestyle has changed to a great extent which is called the "New Normal" now. Trade and business are restarted to stabilise country's economy. Now those who stay outside for most of their time follow precautions like wearing a mask, social distancing, frequent handwashing, etc. Truly no one ever imagined that we, the all-powerful Homo Sapiens would adopt such a restricted lifestyle. Staying at home is being practiced everywhere except where physical presence is vital like in hospitals and shops. School Education system has been by far the most disadvantaged area, where students practically require classroom lessons and frequent tests which unfortunately are left at the mercy of fluctuating internet connection and unnecessary parental intervention during ongoing classes. This problem is being addressed through ideas of blended education i.e., a mixture of online and offline mode teaching, but that is for distant future. It is matter of great appreciation both for the government and the citizens who efficiently manage the crisis extremely well; hence the future holds hope of normalization. New methodologies and brighter prospects in every human endeavour will evolve eventually.

COVID 19 एक चुनौती

कोविद -19 महामारी ने लोगों के सोचने, समझने और काम करने के तरीके में बहुत ब ा बदलाव किया है। हर काम लोगों के जीवन में एक चुनौती बन गया है। हमें इस बात की अनुभूति होना सबसे ज्यादा जरूरी है कि COVID -19 आज दुनिया के विकसित देशों में तेजी से फैल चुका है।

देश की अर्थव्यवस्था हो या शिक्षा संस्थान, खेल जगत की दुनिया हो या मनोरंजन के माध्यम, पर्यटक स्थल हो या मंदिर, COVID -19 ने सब कुछ अस्त-व्यस्त कर दिया है। महामारी कोरोना में वैसे तो सभी को चुनौतियों का सामना करना पड़ा। पुलिस, डॉक्टर एवं नर्स की भूमिकाएँ बेहद अहम हो गई, सही मायने में चुनौतियों का सामना इन लोगों ने ही अधिक किया है। पुलिस अधिकारियों और महिला डॉक्टरों ने वैश्विक महामारी के खिलाफ समाज की जंग में अपनी भूमिका से पीछेन हटने का फैसला कर एक मिसाल कायम की है।

पुलिस शहर में यातायात ड्यूटी में व्यस्त हैं, जहाँ उनको काम बंदी के नियमों का उल्लंघन करने वाले वाहनों की जाँच करना है और जरूरतमंदों को भोजन के पैकेट वितरित करना और अपने ही परिवार को स्वस्थ रखने के लिए उनसे दूर रहना है। बंद के नियम प्रभावी रहने के दौरान डॉक्टर भी पास में स्थित सरकारी स्वास्थ्य केंद्र में मरीजों की जाँच करने में व्यस्त हैं। उन्होंने अपने जीवन को महत्व न देकर अपने कर्तव्य का पालन कर महत्वपूर्ण योगदान दिया है। इसमें शिक्षक भी पीछे नहीं रहे उन्होंने भी बच्चों को पढ़ाई एवं किताबों से दूर नहीं होने दिया है उन्होंने भी उस परिस्थिति में सामान एकत्रित कर उन्हें व्यस्त रखने की भूमिका पूर्णत: निभाई है।
