**Energy conservation:  
Where do we stand?**

## PRINCIPAL'S MESSAGE

The National Energy Conservation Day is being celebrated every year on December 14 since 1991. The Bureau of Energy Efficiency (BEE), under the Ministry of Power, spearheads the celebrations every year. The objective to celebrate National Energy Conservation Day is to promote mass awareness about the importance of energy efficiency and conservation.

National Energy Conservation Day in India is celebrated to make people aware of the importance of energy as well as saving or conserving energy by using less energy. The exact means of energy conservation is using less energy by avoiding unnecessary consumption of energy. Using energy efficiently is very necessary to save it for future use. Energy conservation should be rooted in the behavior of everyone get more make successful the plan of energy conservation. Energy conservation is a conscious, individual effort, and at macro level it leads to energy efficiency.

India is the third largest consumer of energy after USA and China. In order to ensure that energy is conserved for future generations, it is necessary to use it efficiently. Energy conservation involves deliberate actions and practices aimed at using energy more efficiently. We can take some simple steps to reduce the consumption of electricity. Switching off unnecessary appliances and utilities. Ensuring all electric switches are in the OFF position when not in use. The appliances like refrigerators, washing machines, etc., need to be checked to determine whether they are energy efficient. LED lights in place of bulbs are better. Solar energy is getting more efficient, and solar items are more easily available and affordable.

Saving energy TODAY will make TOMORROW bright. Let's nurture nature so that we can have a better future. "Earth provides enough to satisfy every man's needs, but not every man's greed"- Mahatma Gandhi. Energy saved is energy earned. Let us work towards a sustainable world by embracing renewable energy.

Prof. Fr. Johnson  
Principal

## Birthday
